## A Protective Tariff.

Another anti-Tariff article from the News, very jaugarly prefuced with the line- Our style may not be quite as captivating as the Sentinel's." It is true enough that the News style is not a respirating as ours on the subject of the tariff; and the reason is evident—that paper is doing batthe for foreign interests, while the Sentinel is workne for Hume Laker. So, for, it is true enough that a large portion of

Walker, into English hands. We do not mean to occupy our columns with a concents to prove that protection to Home Labor benefits all kinds of industry. We might as well prove that the san shines at accorday. We only mean occasionally to quote from the fathers of the Republic to show that they thought the principle of Protection tight, while PRANKIN Perger and the News think it wrong,

Washington called the carnest attention of Congrass to the "expediency of giving encouniquaent thought it " of two much consequence not to enthought it "of too much consequence not to on-this continuance of the efforts of Congress," discenses thought that the "protection" of manufactures" was one of the "landmarks" by which our policy should be guided. He coneratulated Congress that "monufactures" under predecting duties and prohibition, would become permanent." Also that " to be independent for the conforts of life, we must fabricate them oursalves-we must place our manufactures by the side of our agriculturists."

Manison recommended the attention of Congress to "laws which should more especially protect and faster the several branches of manufacture." Morgon told Congress that "our manufactures will require the systematic and fostering care of

Jacusov said that"the right to adjust duties with a view to the encouragement of domestic brancher of industry," was "completely identical with the power to impose duties on imports." Also, as to the policy of protection, Jackson wrote the following letter to Dr. Coleman:

Washington City, April 26, 1824. Washiston City, April 20, 1824.

"Heaven smiled upon us, and give us Liberty and Independence. That same Providence has ideased as with the means of National Independence and National defence. If we omit or refuse is use the gifts which have been extended to us, we deserve not the continuance of His blessings. He has filled our Mountains and our Plains with Minerale, with Lead, Fron and Copper—and has given us a Climate and Soil for the growing of Hemp and Wool. These being the great uniterials of our National defence, they ought to have extended to them adequate and fair Protection, that our Manufacturers and Laborers may be placed in a fair competition with those of Europe and that we may have within our country a supply of those leading and important articles so especially and inspectation and articles so especially and inspectation and articles so especially described in the control of the country as supply of those leading and important articles.

"ANDREW JACKSON!"

SLAVES TO BRITISH POLICY.- Year before last, when Congress had been in session several weeks, there began to pour in from Penosylvania, bundreds of petitions asking an increase of the duties on iron. Mr. Bulwer, the British Minister, sat down and wrote the following letter:

on 160. M. Parish Legation, Warmington, January 30, 1850.

Sin:—It invine been represented to her Majesty's Government that there is some idea on the part of the Government of the United States to increase the duties upon British Iron imported in the United States, I have been instructed by her Majesty's Government to express to the United States Government that no addition will be made to the different manual than the present tariff of the United States, which already weighs heavily on British productions.

Submissive as lambs, the Loco Foco majority in Congress obeyed, and refused to listen to the petitions! Still further to please its task-masters the party has nominated for President, a "valuable practicel ally," of English policy—a "gentleman every way satisfactory to her Majesty's Government?

The "Life of Scott" is issued at the N. Y. Tribune office, and franked by Truman Smith, whig M. O. from Connecticut. They are loading down the mails with them, and the people of the country have to pay for their transportation.—

And it is by far the best publication of the kind And it is by far the best profited on the state over sent through the mails, and is doing "a power of good." But how happens it that the Loco Foco papers have such a holy horror of seeing whig documents franked through the mails, while of good." their own Congressmen, nearly double in number, are at the same work, and those precious economists say never a word?

An Interesting Chew.-In the 3d Congressional district in Maine, the Loco Foce Convenion quarrelled and nominated two candidates The fight is furious. The partizans of Kimbali charge Smart, the other candidate, with casting nore votes in Convention than he was entitled to Smart, in reply, draws the following picture of his

enemies:

"One of them has passed counterfeit money—another violated important trasts in the collection of debts—another has stolen a renord—another has withheld funds and put the government to the expense of sucing for them; another has been guilty of getting a unan the worse for liquor and gambling his money away from him, and another was known a few years ago to procure the nomination of a man for office by an quirageous fund. Compare the assertion with the record, and dades of Cass, Marry, Douglas, and Buchanan what a difference!

Score in California.-The Alta California (independent of party,) of the morning after the reception of Gen. SectUs nomination at San Francisco save:

cisco, says:

"The nominations of the Whig National Convention have been received in this city with the greatest satisfaction. No sooner had the news spriad than cannon were discharged, tontires lighted, cheers given, and all the other demonstrations of delight indulged in. The gratification is sitilently inconse, almost amonting to enthusiasm. This arises, in a great measure, from the fact that it was generally expected, if not wished, that Gen. Scott words be the nominee. The fact answering so well to the naticipation, has probably begotten the idea that Scott was really the choice of Whigs of California. And such, we are inclined to believe, was really the case, albeit there is now and then a grambler that regrets that Mr. Webster was not nominated.

It is upon "a clean party vote" that the leaders and wire-workers rely to elect their Judicial ticket. Mukwanago is certified to be "all right," because the Sachems there promise such a vote. We doubt whether they can fulfil the contract.

"WAS NOT THAT THURDER ?"-The music from the Green Mountains strikes harshly upon the ears of the Morning News. It dislikes exceedingly this Whig Reveille for the Fall Campaign. DESERRY AND THE MORMONS. CONCLUDED.

GREAT SALT LAKE CITY, July 15, 1859.

My DEAR GEN. :-They water crops altogether here by digging small canals and trenches and completely over-flowing the field—this they do 3 times, generally, for wheat, and oftener for other products. This summer is the first time that they have been fafored with heavenly irrigation in the shape of rain—but this mouth the rain and hail have de satisfaction. stroyed thousands of bushels of wheat all ready for harvesting. One other peculiar feature about the crops I must not forget to mention—they irrigate when they cut the wheat—and from the talk remaining, another crop springs up the next year, without any fresh seeds the field yielding as anch and sometimes more than before-and this has been done, in some instances, for two consecntive years, with the same result. Good flour

On Saturday of next week is the great gala day of the Mormons-July 24, 1847 being the ime when the first pioneer reached the valley.-They make it a great holiday and celebrate the vent in much the same manner that we do the Fourth, only they dance a great deal more-this ixet being a recreation to which they are much addicted. I send you a copy of the "Descret News," by which you can see that they are an inelligent set of men who control matters here, in smuch as the Church does not forget the printer, fice fail to do so. The appearance of the sheat will be a sufficient indication to you of the enerwith unvarying regularity at a cost for materials and paper that is enormous; everything being rought here at so much risk of damage by water and so great an expense for transportation. They have a good newspaper and job office and are well patronized in both departments; having over 1600 regular subscribers at \$5 each, Mr. McКхисит. who used to work in our office and was after wards Foreman of the Wisconsin, is setting type here at 50 cents a thousand, and doing well otherwise—having sir wives already! Starsbury's reconnoissance, and will only say, in brief, that the lake extends from a point a little south of west from the city, to about eighty miles north, forming the north western boundary of the valley salt, of the best quality, is shoveled up by cart sait, of the best quanty, is shortest up by loads on its shores, and three barrels of the water makes one barrel of fine sait; it is very pleasant and healthy to batho in any part of the lake.

The Mormons profess to be a law loving and

law abiding people, and I think they are so-in their social condition they are much the same as the rest of mankind excepting in the marriage relation. There are some Mormons who are meal; mouthed yet about it, and call it a system of spiritual wifehood; but these are met by an argument pregnant with significance-most of their spiritual wives are in the situation that "ladies wish to be who love their lords." How ever, most of them who have more than one wife, live in open polygamy and advocate the system with much ability and ingenious sophistry, quoting the Bible for authority and David, Solomon, and Brigham Young for examples. As near as I can discover there is a sort of monopoly in the wife market, the leaders having so many that others have to go without. Netwithstanding reports to the contrary, there is no doubt of the fact that the consus returns proved that the Mormons number more males than females. Gov. Young has about fifty or sixty wives; I have seen only thirteen of them, and (unless he keeps his beauties hid from the public eye in his barem or setaglio) I can't say much for his faste--for many of them were old old positively ugly. They do say, however, that he has some birds of paradise that are perfect

Huidee's, and that would tempt even an Anchorhe. The people all appear to be honest and many of theta are certainly intelligent—so much so that can hardly help questioning their sincerity, hough i have no right to do so. They are all in astrious, as their rapid growth and progress fully demonstrates—even the unprecedented increase of Milwankee furnishes no parallel to this valley, when you consider their extreme poverty, the they had to contend with and under

Whig Man Meeting in Ohio.—Great enthusiasm prevails here in respect to politics, particularly at present. Lewis D. Camobell has arrived, and is now addressing two thousand voters from the Court House portice. He may justly be proud of his reception, which was cordinal in the extreme. A large delegation of the Whigs of Freble County are here, accompanied by their band and Glee Club. The Hamilton Artillery have been firing the whole afternoon. Butler County is in a new District; a distinct intended to be Campbell's political sepulchre. I on saay mark it down for a Whig Congressman, and he a live one. Campbell is known to be grit to the back hone, and the Whigs of this District are worthy of him. We arreall wide awake. On to victory! Who follows?

here to-Fitchburg, Sept. S.

The Democratic State Convention met here today, and was largely attended from all parts of
the State. The warm disputes of the previous
night, between the hunkers and the coalitionists,
led every one to feel that a decisive crisis in the
party had arrived, as all attempts at compromise,
previous to the meeting failed.

Soon after the election of a President, (the Hon.
N. Wood, coalitionist, by a large instoirty.) Air.
S.D. Bradford, of West-Raxbury, who was the
organ of the national democrats, offered the following.
Resolved, That believing the coalition of the
Democratic party, with the Free Soil party, in have
been fruitful only in ordit or the best interests of
the former, the democrats of Massachusetts repudiare all such connection.

This he finally after an angry and exciting discussion, succeeded in having committed to the
Committee on Resolutions, with instructions to
report upon it.

The body then adjourned for dinner.

APPERSON SESSION.

The Convention got into another squabble about the nomination of governor, the Hunkers claiming that the platform should be first adopted; but here, as on every vote, the coalitionists had a triumphant majority.

At this point a national democrat asked all who were opposed to further coalition to retire from the half.

were opposed to further condition to retire 1761a the hall.

They consequently retired to another room, and appointed S. D. Bradford tempotary chairman, and voted to await the action of the regular Convention against conlition.

The regular Convention was densely crowded—nearly 2000 persons being present.

Hency W. Bishop, of Lenox, was nominated for Governor, by \$34 out of 1,139 votes—the minority being chiefly for David Henshaw and Pliny Merrick.

The Continuities on Resolutions exported the Bul-

Merrick.
The Committee on Resolutions reported the Balimore platform, and eulogized the national can-lidates. The Resolution of Mr. Bradford, they re-ported without comment, for the action of the

onvention.

A confirmist immediately moved to lay it of e table.

A contrioust nonectarely flower to be table.

A scene of indescribable confusion cusuad—a dozen persons were crying out "Mr. President," and as many others were calling out "Order," and nowing the previous question.

The opponents of the coalition tried in vain to speak upon the resolution.

Order having been partially restored, the Convention laid the resolution upon the table by a decisive vote, amid the cheers of the coalitionists.

The hunkers, to the number of 200 or 300, left the ball.

The nutries, who into the ball.

The Convention then proceeded to pominite Hon. James B. Thompson. of New Bedford, as a candidate for Lieutenant Governor.

Charles G. Greene, of Boston, and James S. Whitney, of Conway, were also nominated as electors at large.

After the transaction of other business the Convention accouraged, sine die.

TRANSACTIONS OF THE SECHOERS.

The seceders, or national democrats, organised permanently, by electing S. D. Bradford, President, with a large number of Vice Presidents and Sections.

with a large number of Vice Presidents and Servetaries.

A Provisional State Committee was appointed, and also a Committee of Resolutions, who subsequently reported a series, in which they state that, as opposition to the Fugitive Slave law is the fundamental principle of the free soil party, therefore a coalition with that party is entirely inconsistent with the democratic platform; and that all true democrata, who desire faithfully to adhere to both nomination and platform, and who desire to preserve their principles from the contaminating influences of abolitionism, are compelled to withdraw and express their firm and decided protest against this action of the convention—and finally, but the previous coalition had been only fluitful of evil to the democratic party, and that the democratic of Mussachusetts repudiate all such unnatural connections, and will never coalesce with any party maintaining principles destructive to their own.

The resolutions were adopted with shouts of an-

wn. The resolutions were adopted with shouts of applause.

A committee was appointed to report hereafter

State address.

Speeches were made denouncing the regular

Speccies were based on the convention.

After giving the Provisional Committee power to call a convention of the true democracy, if deemed expedient, the meeting dissolved.

Mr. Green did not bolt from the regular convention, though he was in favor of Mr. Bradford?

The boltens are not chiefs in the party, but are hard working men; many are from the vicinity of Boston, but there are some strong men from the South and West.

LATER FROM BUENOS AYRES. HIGHLY IMPORTANT-ANOTHER REVOLUTIONS

We learn by the passengers by the Bark Hazard, which strived at port p. m. this morning, that the day previous to sailing, July 26th, a revolution had broken out in the City of Buenos Ayres, and that the Provincial Governor had resigned.

The American Minister, Mr. Schemek had been received by the Government on the 27th July. The Hazard brought no papers for the press, so that we are without the particulars of the revolt.
